

Klippon® Relay

TERMSERIES-compact solid-state relays with 2A Output current
 Wear-free switching for inductive loads with overload protection

The TERMSERIES-compact solid-state relays switch inductive loads reliably, wear-free and in a space-saving way in control cabinets. Users significantly reduce wiring effort thanks to the slim design and the optional FE contact. The integrated overload protection safeguards connected components and increases system availability.

With PUSH IN connection technology, electricians install the relays quickly and safely. High switching cycle durability ensures low-maintenance operation and sustainably reduces service and downtime costs.

YOUR SPECIAL ADVANTAGES:

- Switch inductive loads reliably and wear-free
- Save space in the control cabinet thanks to a slim design
- Significantly reduce wiring and installation effort
- Increase system availability thanks to overload protection
- Compatible with all TERMSERIES accessories

**WEAR-FREE SWITCHING | SPACE-SAVING |
QUICK WIRING | RELIABLE PROTECTION**

APPLICATIONS:

TERMSERIES-compact solid state relays support electricians, designers, service and maintenance personnel, and purchasers in building efficient, safe, and economical control cabinets. They switch inductive loads reliably and without wear, and their slim design saves valuable space. The integrated overload function protects connected components and reduces failure and service costs. Thanks to PUSH-IN connection technology, users can install the relays quickly and without errors. The optional FE contact further reduces wiring effort and simplifies planning, installation and maintenance.

TECHNICAL DATA

Type	Control side	Contact type / Version	Load side	Clamping range min./max.	Qty	Order No.
TOPH 24VDC 48VDC2A	24 V DC	1 NO contact	8 - 48 V DC / 2 A	0,14 - 2,5 mm ²	1	2773470000
TOPH 24VDC 48VDC2A FE	24 V DC	1 NO contact with FE contact	8 - 48 V DC / 2 A	0,14 - 2,5 mm ²	1	2773480000
