

Industry Light

Industrial LED Lighting Solution

Economical Lighting of Control Cabinets
and Devices in the Field

Robust and Modern Design

The IP67 aluminum housing is designed to withstand even the harshest environmental conditions.

Wide Light Cone

The unique LED arrangement provides a wide light cone that illuminates control cabinets or locations in the field.

24 VDC Powered

It can be powered via a power supply or an I/O distributor block.

Easy and Extendable Connection

The M12 plug allows for a fast and weathertight connection to the power supply.

Market Trend Towards LED Lights

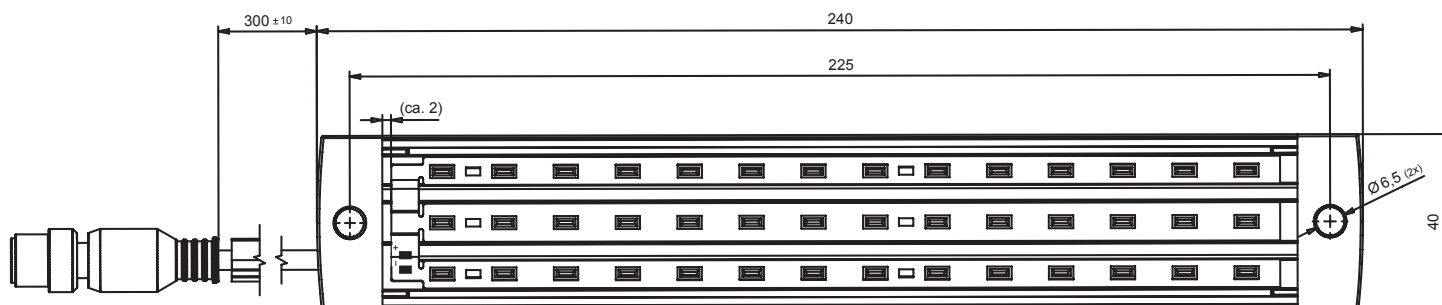

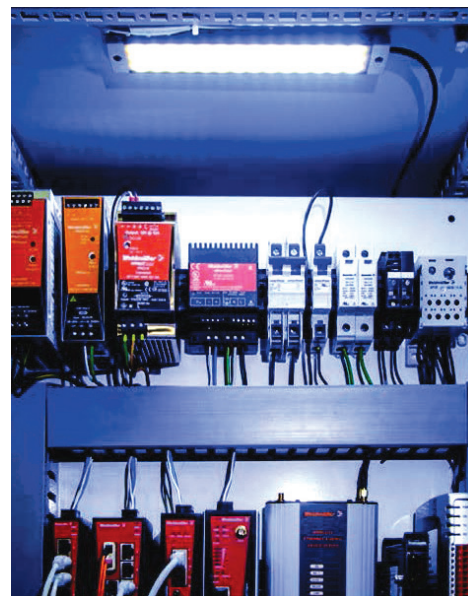

Control cabinets are often insufficiently lit. Conventional cabinet lighting, however, is too large and expensive. A favorable lighting solution should be space-saving and effective to make maintenance work in cabinets more efficient and safe.

The new Weidmüller Industrial Light (WIL) meets these requirements. The compact LED light illuminates the inside of the cabinet with a wide light cone. This smart solution can be used as illumination in the field as well.

The new LED light is designed to fit exactly into a standard cabinet and its housing protects against water and dust for field use in accordance with IP67. Its intelligent design makes it extremely robust and small.

Conventional Mounting

The mounting holes are positioned at intervals of 225 mm, suitable for the mounting situation in most control cabinets.

Technical Data

Current Consumption	Voltage	Connector	Protection Class	Temperature Range	Cable Length	Lumens
420 mA	24 VDC	M12 A-coded	IP67	-20°C to +60°C	0.3 m	1880

Product Information

Type	Description	Part Number
LED Industrial Light	WIL standard with 30 cm M12 cable	2436210000

Accessories	Description	Part Number
SAIL-M12GM12G-3-5.0U	Extension line 5 m	9457230500
SAIL-M12GM12G-3-10U	Extension line 10 m	9457231000
SAIL-M12GM12G-3-15U	Extension line 15 m	9457231500
SAIL-M12GM12G-3-20U	Extension line 20 m	9457232000

Shorter lengths available
