World's First Adjustable Crimping Tool PZ 6 ROTO ADJ

Adjustable handle width

Rotatable crimp die

Type	Order No.
PZ 6 ROTO ADJ	2831380000

Crimp it – Don't Crush it

Crimping is now even more efficient and offers a better ergonomic design with our new PZ 6 Roto ADJ. We have the first crimping tool with an adjustable handle width in our product range. The PZ 6 Roto ADJ allows for the crimping of wire-end ferrules across a wide range of wire, 26 AWG to 10 AWG and can be optimally adapted to your individual preferences due to the rotatable crimping die and the adjustable handle width.
