

Smart Industrial Connectivity: Electrification, automation, digitalization, electrical connection technology, electromobility, and renewable energies are the markets where Weidmüller excels.

As experienced specialists, we offer customers and partners worldwide products, solutions and services in the industrial environment of energy, signals and data. We are shaping the technological challenges of tomorrow and are constantly developing innovative, sustainable and useful solutions for the individual needs of our customers. Together, we set the standards in the field of industrial connectivity.

Your Role as IT Application Owner

As an IT Application Owner, you will take end-to-end responsibility for globally used applications and systems across Weidmüller throughout their full lifecycle. You will partner with business stakeholders to turn process needs into smart, scalable IT solutions. In this role, you will help ensure technical compliance, create measurable business value, and actively support Weidmüller's digital transformation journey.

Key Responsibilities

- **Product Vision & Strategy:** Shape and continuously refine a clear product vision aligned with the broader IT strategy.
- **Backlog & Release Management:** Prioritize requirements, manage the product backlog, and coordinate releases with a strong focus on business value.
- **Stakeholder Collaboration:** Collaborate closely with process owners, business teams, and external partners to deliver effective and sustainable solutions.
- **Compliance & Quality:** Ensure alignment with security standards, governance requirements, and internal policies.
- **Lifecycle & License Management:** Drive continuous improvement, enhancements, incident handling, support, and activities related to software license management.
- **Performance & Optimization:** Monitor application performance, define relevant KPIs, and identify opportunities for optimization.

Your Profile

Key Qualifications, Experiences and Knowledge:

- Bachelor's degree in computer science, engineering, or a related field, or completed vocational training in IT.

- Language skills: English (B2) is required. German (B2) is a plus, but not mandatory.
- At least 2 years of professional experience in IT application management or a comparable role.
- A solid understanding of IT architecture, enterprise applications, security, networks, and cloud technologies.
- Knowledge of process modeling (BPMN 2.0), project management, and software license management is highly beneficial.
- Experience with the Microsoft Power Platform is helpful, but not a must-have criterion.
- A collaborative mindset, strong communication skills, and the ability to build effective relationships across teams and levels.

What we offer

- Professional development: you will be part of an international team committed to support you to learn new skills and shape a career path that fits you, with access to various learning platforms;
- Onboarding & Integration: we ensure a smooth and efficient integration through a structured onboarding program, complemented by the ongoing support of a collaborative team;
- We prioritize your well-being: therefore we're granting access to high-quality healthcare services through our comprehensive private medical insurance;
- Meal tickets: we support your everyday routine with meal tickets to make your workdays a little easier and more enjoyable;
- Gifts for Special Occasions: Easter Holidays, Winter Holidays, 8th of March for our ladies colleagues;
- Flexibility: we support a healthy work-life balance by offering flexible arrangements tailored to your role and responsibilities;
- Bonuses: performance bonuses as a reward of your achievements and referral bonuses as a thank you for helping our team growth.
