

Smart Industrial Connectivity: Electrification, automation, digitalization, electrical connection technology, electromobility, and renewable energies are the markets where Weidmüller excels.

As experienced specialists, we offer customers and partners worldwide products, solutions and services in the industrial environment of energy, signals and data. We are shaping the technological challenges of tomorrow and are constantly developing innovative, sustainable and useful solutions for the individual needs of our customers. Together, we set the standards in the field of industrial connectivity.

Your Role as Inhouse SAP ERP SD Application Consultant

As an SAP SD Application Consultant, you will support and optimize sales-related processes in SAP, ensuring smooth day-to-day operations and you will also collaborate with business users to improve and adapt the system to their needs.

Key Responsibilities

- Provide end-to-end support for the sales processes of the Weidmüller Group, ensuring stable and efficient system operations;
- Deliver 2nd and 3rd level support for SAP applications and related interfaces, including incident analysis, troubleshooting, and resolution;
- IT sub-project management within implementation / upgrade projects;
- Analyze, design, and coordinate SAP change requests in close collaboration with global key users;
- Support global key users in the implementation and optimization of business process changes, ensuring alignment between business requirements and system capabilities;
- Manage and coordinate incident resolution processes, ensuring transparency, prioritization, and sustainable issue resolution.

Professional Skills & Experience

- Successfully completed degree in Business Informatics or a comparable qualification;

- Minimum of 3 years of professional experience in SAP consulting or a comparable in-house role – best case international environment;
- Practical experience and strong system knowledge in:
 - SAP ERP, with a focus on Sales and Distribution (SD);
 - Pricing;
Solid understanding of SAP pricing mechanisms, including condition technique and pricing procedures;
 - ABAP Development;
 - Experience in ABAP and ABAP Objects (OO);
 - Knowledge of ABAP RESTful Programming Model (RAP) is a plus (not mandatory);
 - End-to-end business processes, including:
 - Logistics (Inbound / Outbound);
 - Production (PP);
 - Procurement (MM);
 - Integration scenarios and interfaces, e.g.:
 - eCommerce platforms (Webservice);
 - EDI;
 - SAP Cloud Platform Integration (CPI);
 - IDoc Handling;
Experience in IDoc processing, monitoring, and troubleshooting in integration scenarios.
- Strong English communication skills (written and spoken);
- Experience in integrating systems and business processes ;
- Proven ability to manage and coordinate external service providers;
- Good command of English in written and spoken;
- Willingness to travel.
