

Material change for the actuator from PPA+PTFE GF V0 to PA9T GF V0

Dear Madam or Sir,

Product adaptations serve the purpose of continuous product and/or process improvement. The listed products are delivered in a modified version. Please pass this product information on to your employees and, if needed, to your customers.

1. General Overview

Type of notification: ☒ PCN ☐ PDN ☒ Short-term action

Short-term action due to: _____

- | | |
|--|---|
| ☐ Software / Firmware Bugfix | ☐ Short term delivery stop by supplier |
| ☐ Short term recall by supplier | ☒ Force majeure |
| ☐ Product improvement with customer benefit | ☐ Other |

2. Technical changes

Due to a long-term supply shortage of **PPA+PTFE GF V0** - the material previously used for the actuator (pusher) - we are switching to **PA9T GF V0**.

Equivalence in terms of the relevant technical properties has been verified. Additionally, the new material is PFAS-free and thus represents a more environmentally friendly alternative. Both materials have **UL 94 V-0 certification**.

The material change results in a slight change in the color of the pusher. This has no impact on the specified product properties.

sample: old version

Sample: new version

3. Schedule

We are writing to inform you that this change will take effect in series production starting in **July 2026**.

There will be no inventory adjustment. However, we guarantee that different material versions will not be mixed within a single packaging unit.

4. Affected parts
