Crimp Counter - The Smart Solution for Maximum Tool Lifespan

Crimp it. Count it. Prove it.

In a world where everything is counted – steps, calories, miles – we are setting new standards in the maintenance of crimping tools. Just like a car, your tools need regular care to remain efficient and durable.

The Crimp Counter is the intelligent solution for optimally planning maintenance intervals and keeping track of your crimping tool usage. Certified tools benefit from automatic reminders for the next re-certification, ensuring your tool always meets the highest quality standards.

Your benefits at a glance

- **Easy Maintenance Planning:** Integrated NFC interface enables quick reading of all relevant data via app
- **Maximum Transparency:** Stores total number of crimps, service counter and battery capacity
- **Intuitive LED Display:** Three-color LED indicates current maintenance status at a glance
- **Customizable:** Adjustable service intervals (5k, 10k, 15k crimps) for optimal maintenance strategy
- **Flexible Use:** Pre-installed on Weidmuller ZERT crimping tools or available as a retrofit solution
