

## Technical change to M12 crimp connector with crimp flange

Dear Madam or Sir,

the products of the M12 crimp connectors with crimp flange will be changed with immediate effect.  
Please forward this Product Change Notice (PCN) to your employees and, if applicable, to your customers.

### 1. General overview

Type of change:  **short-term** (executed within the next 6 months)  
 **normal** (executed after 6 months)

#### Short-term action due to:

- Sustainability

### 2. General information

All M12 crimp connectors with crimp flange are supplied with the contacts and the grommet.  
Over time, the market has reflected to us that the grommet is very rarely needed or the contacts in a different number. These will be offered separately from now on.

In addition, we will adapt the outer packaging.  
From now on, all connectors will no longer be additionally packed in an outer carton.

The topic of sustainability is very important to Weidmüller, so we have decided to take these steps.

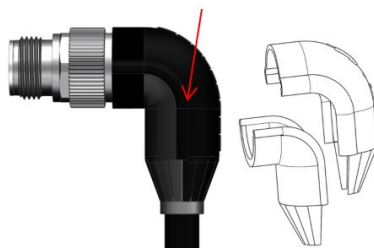

### 3. Change details

For all M12 crimp connectors with crimp flange, the contacts and the grommet are omitted from the scope of delivery and can then be ordered separately.

**Gerade Version:**

**Gewinkelte Version:**

**Kontakte:**

In addition, the outer carton is omitted and thus this change results:

**Current:**

- Plug in PE bag + contacts + grommet.
- BPZ and PE bag in carton
- Carton with paper label

**Future:**

- Plug (Without contacts and grommet) and instruction in PE bag.
- The bag will be printed

#### 4. Affected parts

A list of the affected articles can be found in the appendix

#### 5. Timeline

The changeover will take place immediately. Due to stock levels, mixed stocks may occur in deliveries.

We hope that the changes will benefit your business and will not affect you in any significant way. We apologise in case of any inconvenience caused. Please rest assured that we will do everything possible to achieve this product change as smoothly as possible with minimum or no business disruption.

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.
