

Technical change HDC base housings size 16D/32A/32B

Dear Madam or Sir,

the below listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

The base housings are generally prepared for two drillings or cable entries. For base housings with only one cable entry, the opposite hole is closed.

2. Technical change

The inner diameter of the hole preparation is now significantly enlarged. However, this has no further consequences for the user or customer.

3. Reason for change

The reason for change is an optimization of the production process.

4. Availability

The old and new parts are mixed on stock.

5. Affected parts
