

Switch to simple – with Klippon® Relay
High-quality relays with unique all-round service

Whether switching, separating, amplifying, or multiplying: relays perform a multitude of different tasks in industrial applications. They have very specific characteristics and are available in almost innumerable varieties on the market.

Klippon® Relay from Weidmüller makes your choice easy. Our worldwide unique all-round offer combines maximum relay variety with matching accessories and first-class service. We provide you with high-quality products that have been thought out down to the smallest detail, combined with comprehensive support from product selection to modern data services. Only with Klippon® Relay can you be sure to get the right relay for your specific needs – and save time and money.

That's our promise!

Switch to reliable – with Klippon® Relay

Optimal relay selection for maximum plant availability

Is system availability your top priority? Then with our high quality Klippon® Relay portfolio you are on the safe side. We offer you comprehensive support to ensure you get the optimally dimensioned product for your application. With decades of experience in the relay segment, we choose the optimal products for you and ensure they are available within the shortest possible time. In this way you can reliably avoid unnecessary machine and system damage, minimise downtimes, and ensure system availability.

Switch to secure selection – with Klippon® Relay

The comprehensive relay portfolio with the perfect support

However complex your application environment, the wide Klippon® relay portfolio offers robust and efficient relays for every imaginable application. To ensure you find exactly what you need from our large selection, we offer comprehensive support in choosing the right product. We support you in selecting accessories and provide tips for installation and maintenance. This saves a lot of time and ensures you that you always get the optimum product for your specific application. Quick, easy – and without selection errors!

Switch to efficient – with Klippon® Relay
Innovative relay solutions for fast and easy wiring

Time is money. Especially in switch cabinet production and plant engineering. Relay modules and solid-state relays from the Klippon® relay portfolio can be installed particularly easily, quickly, and conveniently. The innovative PUSH IN technology shortens your wiring times and avoids incorrect wiring due to coloured pushers. Our KITS, consisting of relays with status LED and sockets with retaining clips, offer you even more convenience. They are supplied fully assembled and functionally tested for time-saving installation and fast commissioning with shorter processing times.

Switch to maintainable – with Klippon® Relay
User-friendly relays for fast and error-free operation

Regardless of the application and environment, maintenance and repairs are unavoidable and must be carried out at regular intervals. With Klippon® Relay you can considerably reduce the required effort. We have focused on many details that make everyday maintenance work faster and easier. These include optimum marking options, clear status LED, consistent product labelling, connection markings, and much more. This makes work easier, faster, more cost-effective, and safer.

Switch to safe – with Klippon® Relay

Fully reliable special relays with comprehensive certification

Many machines and plants are applied worldwide and under the most diverse conditions. Therefore, they have to operate reliably under very different environmental conditions. In addition, they must comply with specific standards and directives. With Klippon® Relay, you have a range of products available to meet these requirements optimally. Whether high temperature ranges, strong vibrations, fast switching cycles, or specific safety requirements: With Klippon® Relay you will always find a suitable solution.

Switch to profitable – with Klippon® Relay

Multifunctional relay solutions for efficient warehousing

Warehousing and logistics play an important role in the assessment of total costs. With Klippon® Relay you can significantly reduce your logistic expenses. For example, we provide many of our products with Multi-voltage inputs, which reduces the width of your stock. In addition, we can supply you with a wide range of convenient relay KITS that are pre-assembled, function and insulation tested. With these KITS you can reduce material numbers and speed up the storage and retrieval process considerably. An important contribution to process optimisation in everyday life.

Weidmüller – Your partner in Industrial Connectivity.

As experienced experts we support our customers and partners around the world with products, solutions and services in the industrial environment of power, signal and data. We are at home in their industries and markets and know the technological challenges of tomorrow. We are therefore continuously developing innovative, sustainable and useful solutions for their individual needs. Together we set standards in Industrial Connectivity
