

Addition of insertion chamfers on the mating face of the SL 5.08HC

Dear Madam or Sir,

Product adaptations serve the purpose of continuous product and/or process improvement. The listed products are delivered in a modified version. Please pass this product information on to your employees and, if needed, to your customers.

1. General Overview

Type of notification: ☒ PCN ☐ PDN ☒ Short-term action (<6 months)

Short-term action due to:

- | | |
|---|---|
| <input type="checkbox"/> Software / Firmware Bugfix | <input type="checkbox"/> Short term delivery stop by supplier |
| <input type="checkbox"/> Short term recall by supplier | <input type="checkbox"/> Force majeure |
| <input checked="" type="checkbox"/> Product improvement with customer benefit | <input type="checkbox"/> other |

2. Technical changes

The SL 5.08HC pin headers are delivered with an optimized geometry. The mating face has been supplemented by an insertion chamfer (yellow marked area in the pictures). This change simplifies mating between the male header and the counter part.

3. Availability

With this letter we inform you that the change will be implemented to the production in February 2023. There is no stock adjustment. Therefore, within a delivery from this date, mixing of variants may occur, but not in one packaging unit.

4. Affected parts

A list of the affected articles can be found in the attachment. High pole (> 12 pole) pin headers are affected by the geometry optimization.

5. Data

Except for the geometry, all technical data and functional features will not be affected by this change. Detailed information on the technical data can be found for the products in the online catalog.

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.

For further questions please contact your sales office directly. All contacts for sales representatives are available here:

<http://www.weidmueller.com/contact>

Weidmüller will see this notification as accepted unless a separate procedure is requested in writing within 30 days of the issue date.

Best regards

Product Management
