Why Weidmüller?

Increased efficiency for our customers among
Electrification | Automation | Digitalisation

Workshops

In **cabinet building**, our approach to optimization along the process chain offers benefits of up to 20%. Our new SNAP IN connection technology increases this even further.

For **automation**, the use of our industrial IOT and automation solutions is a real enabler from data to value.

In **machinery** planning tools for field wiring are introduced.

Alternative for DC customers: **Device manufacturers** added value in design-in process
