

Weidmüller Configurator

Simplify your planning process

Explore our engineering software - WMC

The Weidmüller Configurator (WMC) is a configuration tool for seamless and secure planning of electrical systems as well as simple procurement and assembly of complete solutions. Unlock your potential of automated production from paperless production all the way up to automatic manufacturing - in just one tool.

Proven configuration designs in real 3D

The integrated plausibility and collision check with the complete digital documentation ensures that you can rely 100% on your configuration.

Seamless E-CAD Integration

Integrated interfaces enable the simple exchange of product data between the WMC and all common engineering tools, such as Zuken E³ or EPLAN Electric P8.

Data based on industry standard ECLASS

Use digital product information based on the ECLASS advanced standard: high quality and future-proof.

Interfaces for automated production

For further assembly, labelling with M-Print[®] PRO and cabling, the WMC provides all the digital information required for complete process automation. This enables us to provide Fast Delivery Service.
