

Technical change of SAKR

Dear Madam or Sir,

the below listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

The affected article is a disconnect terminal of our SAK screw connection series. Within an ATEX certification of the notified body SIRA we decided to not extend the ATEX certification of this product. The Ex - marking will be removed from the product.

2. Technical change

The product itself, material and form fit function are not affected. Only the printed ATEX information will be deleted and the terminal without printed ATEX information cannot be used in ATEX application.

Product image:

3. Reason for change

Within the Brexit it is unclear how long certifications by SIRA are still valid. In addition, with the WTR 4, we not only have a new disconnect terminal within the W-Series, but can also offer a complete system with a Feedthrough-, Protective conductor- and Fuse terminal of the same contour. Since all terminal blocks, WFS 4 from Q2 2020 onwards, have an Ex approval, we have decided not to extend the SAKR approval.

Article numbers:

1020100000 WDU 4 1010100000 WPE 4 7910180000 WTR 4 2561900000 WFS 4

4. Availability

The SAKR without Ex-marking is available at Q1/2020.

The WTR 4 with Ex-marking is already available.

5. Affected parts

The following parts are affected:

- 0412160000 SAKR
- 0412180000 SAKR BL
- 0172160000 SAKR/35
- 0172180000 SAKR/35 BL
- 0412120000 SAKR KRG
- 0412760000 SAKR 15

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.
