

Product Discontinuation for different articles SAK-Series, W-Series, Z-Series and Accessories

Dear Sir or Madam,

the products listed below are intended to be discontinued and will no longer be available after a transitional period. Please pass on this product information to your employees and possibly to your customers. All of these product discontinuations have been made to support our continued commitment for improvement and ongoing product development.

1. Initial situation

Over the past years, the requirements and conditions within the target applications of our products have continuously evolved. As a result, demand has declined, making it increasingly challenging to maintain production in a cost-effective manner.
In light of these developments, we have decided to discontinue the manufacturing of the products listed below and hereby officially announce their phase-out.
Of course, we offer suitable successor products that meet current market demands and provide a future-proof alternative.

2. Schedule / Availability

The articles listed below will be discontinued on 30.06.2026.

3. List of affected articles / follow-up
