

## Product Change Notification – Transparent Sleeves TM V0

Dear Madam or Sir,

in future, the articles listed below will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed to improve the product.

### 1. Initial situation

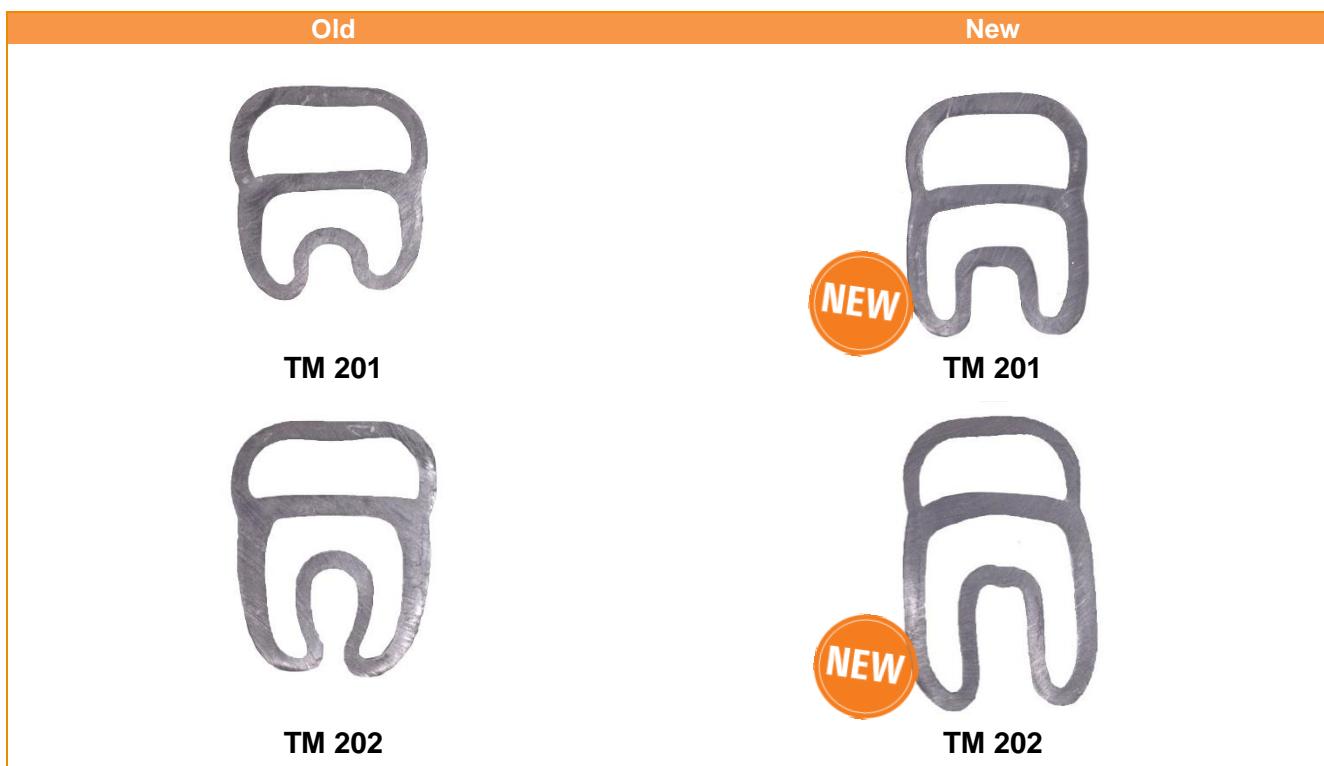

During continuous product improvements, we regularly examine our products for optimization potentials. When installing wire markers simple mounting of the sleeves on the wire is particularly important. For this reason, we attach great importance to the user-friendly design of our products.

### 2. Technical change

The technical change relates to the lower part of the TM 201 and TM 202 sleeves in which the wire is inserted. As shown on the following pictures the space available for the wire has been increased to facilitate wire insertion. In addition, the angular design of the inlay tag pocket allows the TM-I MultiCard and TM-I MultiMark inserts to fit perfectly.

The recommended conductor outer diameters do not change. Please note, however, that we can only guarantee perfect function for the following outer conductor diameters:

Type	Wire outside diameter
TM 201 V0	1,5 mm – 2,5 mm
TM 202 V0	2,0 mm – 4,0 mm

### **3. Reason for change**

The technical modification of the transparent sleeves type TM 201 and 202 simplifies the assembly of the sleeves on the wire which effectively saves time during installation. This new design facilitates the assembly of the sleeve and the insertion marker and ensures that the sleeve and the insertion marker are permanently fixed to the wire.

### **4. Affected parts**

#### **Sleeves of the type TM 201 V0 and TM 202 V0**

Article number	Type
1798640000	TM 201/12 V0
1798620000	TM 201/15 V0
1798600000	TM 201/18 V0
1507060000	TM 201/23 V0
1874850000	TM 201/30 V0
1798560000	TM 202/12 V0
1798540000	TM 202/15 V0
1798530000	TM 202/18 V0
1798520000	TM 202/20 V0
1507070000	TM 202/23 V0
1874760000	TM 202/30 V0

### **5. Availability**

We will clear out our old stock and replace all old articles until end of March 2020 to reduce the risk of mixed deliveries. From this point onwards only new articles with the here written changes will be delivered. The article numbers of the aforementioned products will not be changed.

We are very sorry for all the inconveniences caused and are doing everything to conduct this product change as smoothly as possible without disturbing delivery times and general functions.
