

OMNIMATE POWER male header SV 7.62HP change of flange contour

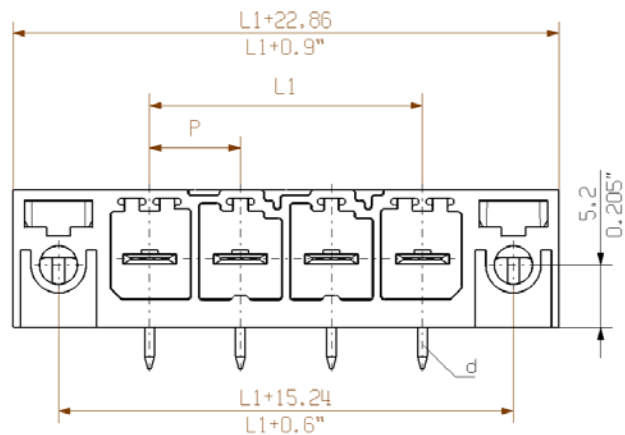

Change:

As part of our ongoing product maintenance and improvement we are going to change the flange contour of our SV 7.62HP. The outer dimension and the technical data will not be affected.

Old:

New:

Availability:

To ensure a smooth change over to existing customer, the conversion will be done gradually without changing any article numbers! Thus, during the conversion period it may lead to a mixed delivery of orders to individual customers, but never mixed in one packaging unit. An inventory cleaning is not planned so far.

Kind regards

Wolfgang Sichmann
