

## Technical change to RS SERIES - Relay modules

Dear Madam or Sir,

The above listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

### 1. Initial situation

Articles on Section 5 were delivered in the past with LP connectors. Furthermore, they were delivered with Dekafix\*

\*Dekafix is the universal marker for terminals, plug-in connectors and electronic modules from the Weidmüller product range (see detail).

### 2. Technical change

Based on continuous improvement the LP connectors will be replaced by LL Tampoprinted connectors

### 3. Reason for change

Obsolescence of LP connector range and addition of **UL-recognized** approvals (**UL**) on the label for these products, making each interface UL recognized.

### 4. Availability

Current products in stock still have old connectors. Since today new productions will be with new modifications detailed above. This will be reflected on its KKZ or compatibility indicator which will be increased. As time goes on, products with old compatibility codes will decrease until end of stock following a FIFO process. FIFO stands for *First in – First out* in our stock locations
