2. Change details

Due to a faulty data transmission, the material of the insulation was incorrectly mentioned as PA 66. The correct designation is PA 6T, and as a result, the documentation will be amended accordingly. Overall, the material PA 6T exhibits higher temperature resistance compared to PA 66. There will be no change to the product since this isolation material has been used since the product launch. For detailed technical information, please refer to the individual products in the online catalog.

3. Affected parts

Please see the below table for the affected article.

Material number	Short description
1433810000	RJ45C5 T1V 3.2N4N TY

4. Timeline

There will be no modification to the article, as the material has been in use since the product launch. Only the technical documentation will be adjusted.

We hope that the changes will benefit your business and will not affect you in any significant way. We apologize in case of any inconvenience caused. Please rest assured that we will do everything possible to achieve this product change as smoothly as possible with minimum or no business disruption.
