## Service certificate: Remote Access u-link

### 1. Validity of this service certificate

This service certificate ("service certificate" or "SC" for short) only applies to the use of Weidmüller's easyConnect Plattform with the service "Remote Access u-link". It is only valid in conjunction with the easyConnect [Service Level Agreement](#) as well as the "Service Certificate Technical Operation" and the "Service Certificate Support" or an individual framework agreement; these regulate the general provisions of the service agreement on which this service certificate is based.

### 2. Contact person

When you register to easyConnect, you will be assigned the role of an admin user. Through the registration you provide Weidmüller with an e-mail address and a telephone number. We will use the admin user as the general contact person.

### 3. Subject of this service certificate

The subject of this service certificate is the functionality to assign u-link connectors to u-link compatible devices in the easyConnect platform and remote access these utilizing a VPN connection.

### 4. Service contents

The service content described below is provided particularly depending on the contract variant selected.

- Remote Access u-link App
- u-link PC-Client
- u-link Device-Client (preinstalled on WM devices, running on WM devices or as a software client on not specified hardware)

### 5. Service features and variants

The following licence parameters are available for this service certificate:

The service package includes the use of:

- Assignment of u-link connectors: Trial:50, S:100, M:250, L:500
