

Redesign of the MTS 5 for THR capability

Dear Madam or Sir,

Product adaptations serve the purpose of continuous product and/or process improvement. The listed products are delivered in a modified version. Please pass this product information on to your employees and, if needed, to your customers.

1. General Overview

Type of notification: ☒ PCN ☐ PDN ☐ Short-term action

Short-term action due to:

- | | |
|--|---|
| <input type="checkbox"/> Software / Firmware Bugfix | <input type="checkbox"/> Short term delivery stop by supplier |
| <input type="checkbox"/> Short term recall by supplier | <input type="checkbox"/> Force majeure |
| <input type="checkbox"/> Product improvement with customer benefit | <input type="checkbox"/> other |

2. Technical changes

The new version of MTS 5 is optimized to increase the maximum temperature resistance of the product. As a result, the MTS 5 products can be used as before in THT soldering processes as well as for THR soldering processes thanks to the optimization. The external dimensions of the new version of the MTS 5 and the PCB layout of the solder pins remain the same, although the housing will be shift by 0.2 mm relative to the position of the solder pins as part of the product change.

3. Availability

This letter is to inform you that the change will be implemented in production from the end of September 2025. There will be a stock adjustment.

4. Affected parts

A list of the affected articles can be found in the appendix.

5. Data

The soldering process is extended from THT to THT/THR. All other technical data and functional features are unaffected by this measure.

Detailed information on the technical data can be found for the individual products in the online catalog.

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.

For further questions please contact your sales office directly. All contacts for sales representatives are available here:
