

## Weidmüller on Wheels (WoW) Interactive Application Van

Delivering the latest application solutions – right to your front door

### Explore products and solution-oriented concepts

Weidmüller on Wheels (WoW) is our interactive, mobile fleet of Industrial Connectivity Vans that brings Weidmüller to your front door. The WoW Van pulls right up to your facility, with a Weidmüller expert as your trusted guide.

### When you tour our WoW Vans, you experience the Weidmüller world:

- PV solutions
- Relays
- MiBridge migration
- Power supplies
- C1D2 applications
- Industrial Ethernet solutions
- The latest fast wiring technologies
- Smart cabinet and automation solutions
- Explore the world of IIoT & automation
- Wireless connectivity to u-remote, u-control and much more

**Weidmüller** 

# Innovative Solutions Across All Industries

Explore how our products work together to deliver complete expertise in industrial connectivity

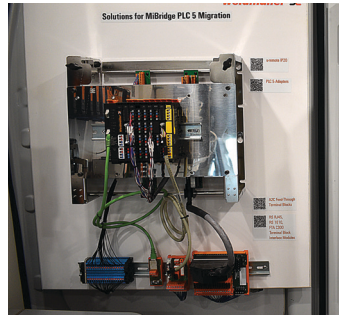

## Automation & Software

See the latest innovations from Industrial Ethernet solutions to Wireless Connectivity and Remote I/O - u-remote

## Migration
