

Technical change to SKH interfaces

Dear Madam or Sir,

The above listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

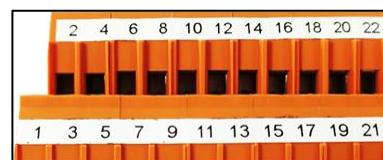

1. Initial situation

Articles on Section 5 were delivered in the past with LPP, LP and LP2N connectors. Furthermore, they were delivered with Dekafix*

*Dekafix is the universal marker for terminals, plug-in connectors and electronic modules from the Weidmüller product range (see detail).

KSW detail

Representative SKH interface

2. Technical change

Based on continuous improvement the LPP, LP and LP2N connectors will be replaced by LL and LL2N connectors with KSW strip markers.

3. Reason for change

Obsolescence of LPP, LP and LP2N connector range.

4. Availability

Current products in stock still have old connectors. Since today new productions will be with new modifications detailed above. This will be reflected on its KKZ or compatibility indicator which will be increased. As time goes on, products with old compatibility codes will decrease until end of stock following a FIFO process. FIFO stands for *First in – First out* in our stock locations
