### 2. General Information

---

Technological change, ecological action and competitive supply security require temporary product adjustments or even consolidations.

All the changes mentioned have been made to support our ongoing commitment to continuous improvement and ongoing product development.

---

### 3. Availability

---

- Start of Production (SoP): 08.06.2007
- Time of change: 18.05.2022

Deliveries in which the previous and new variants are mixed, unfortunately we cannot avoid.

## 4. Product comparison

The following adjustments were made to the products:

- Changeover of printing of the plugged relay from pad printing to laser printing
- Color coding of the coil voltage of the plugged relay:
  - o Is removed for the variants without test button
  - o Is done via the color of the test button for the variants with test button (AC: red / DC: blue)

The adjustment has no effect on the performance or technical data of the products.

It is a visual adjustment only.

The other components of the KIT (socket, retaining clip, LED module, etc.) remain unchanged.
