

Release notes - PWEB Embedded System 6.7.0 EN

Supported deployments:

- u-create web PLC via Addon (from WM repository)
- u-OS App via u-OS App manager (from WM repository)
- general docker image (from WM GTI Software repository)
- images for other platforms on request (info@gti.de)

Approved browsers:

- Google Chrome (Version 88 or higher)
- Microsoft Edge Chromium (ab Version 88 or higher)
- Mozilla Firefox (Version 80 or higher)
- Apple Safari (Version 16 or higher)

Information about WIBU licensing:

The WIBU licensing requires the installation of a Codemeter runtime V7.60c or later installed on the host system.

Download: <https://www.wibu.com/support/user/user-software.html>

The WIBU licensing on u-OS devices will be available with u-OF firmware V2.1.0 or later.

Features

ID	Title

21863	New licensing mechanism based on WIBU Ticket IDs
29266	New Codesys communication driver for Codesys PLC runtimes
71103	Reworked the frontend of the systemmanagement

Bug fixes

ID	Title	Status
74280	Several front end configuration options miss the english translation	fixed
74930	Default and system variables can be edited in the tag editor	fixed
75514	Issues with the recognition of changed licenses	fixed

76085	Inconsistencies when switching projects	fixed
76736	Issue with wrong Modbus driver configuration	fixed

Known issue

Title
Due to compatibility issues with Chromium V68 PROCON-WEB ES Version 6.5.0 and 6.6.0 <u>are not compatible</u> with the WM u-view Eco panels (Articles numbers: 2555790000, 2555780000, 2555660000).
PROCON-WEB ES 6.4.5.1 is the latest PROCON-WEB ES Version which works with these Webpanels.
The WIBU licensing does not work with WIBU runtimes below V7.60c.
