2. General information

In the previous delivery status, the items listed below were supplied with a threaded ring without a hexagon nut. Furthermore, the cable sheath on the open end of the cables was removed to 50 mm and ferrules were crimped onto the single wires.

3. Change details

The threaded ring used is replaced by an updated version with a hexagon nut in addition to the knurl. This makes it easier to fit the cables using a hexagonal wrench. The delivery presentation of the open side will also be changed. In future, the cable sheath will no longer be stripped and the individual strands will no longer be crimped with wire end ferrules. All technical specifications remain unchanged.

4. Affected parts
