Technical drawing of a Weidmüller terminal block assembly, showing a top-down view of the internal wiring and components. The drawing is framed by a coordinate grid with letters A-F on the left and numbers 1-8 on the top and bottom.

The assembly features a central green printed circuit board (PCB) with various electronic components, including a microcontroller and several integrated circuits. Red and black wires are connected to the PCB and terminate in a series of black plastic terminal blocks along the top and bottom edges. A large black cable bundle is connected to the left side of the assembly. The entire unit is housed in a grey metal enclosure with mounting brackets and screws.
