

Subject: OMNIMATE Power male header SU 10.16HP/IT

Initial situation

As part of our ongoing product maintenance and improvement we are going to change the packaging of SU 10.16HP/IT male headers.

Change

The new packaging concept includes a plastic tray that is vacuumed in a poly bag.

Advantage of the vacuummed packaging:

- Longer storage time of the silver contacts

Abb.1: old packaging

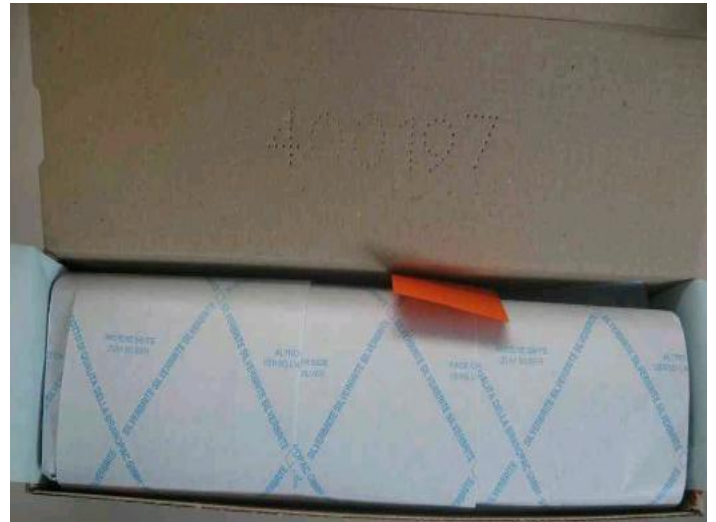

Abb.2: old packaging with silver paper

Abb.3: new vacuummed packaging

Result:

As a result of the new packaging concept, we have to adjust the packaging units of the SU 10.16HP.

- From week 44 the SU 10.16HP will be delivered vaccumed and in new packaging units
- The packaging units will be updated in online-catalogue after change is done in SAP
- Order-no. and price per 100 pieces won't be changed.
- In case of general questions about customer order entry please contact the Supply ChainManagement.

The packing units of the SU 10.16IT won't be changed.

- From week 44 the SU 10.16IT will be delivered in vacuumed packaging

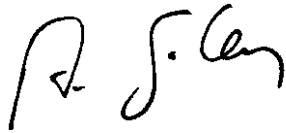

Affected parts:
