

Changed surface for solder pins of SLDV 5.08

Dear Madam or Sir,

Product adaptations serve the purpose of continuous product and/or process improvement. The listed products are delivered in a modified version. Please pass this product information on to your employees and, if needed, to your customers.

1. General Overview

Type of notification: ☒ PCN ☐ PDN ☒ Short-term action

Short-term action due to:

- | | |
|--|---|
| <input type="checkbox"/> Software / Firmware Bugfix | <input type="checkbox"/> Short term delivery stop by supplier |
| <input type="checkbox"/> Short term recall by supplier | <input type="checkbox"/> Force majeure |
| <input type="checkbox"/> Product improvement with customer benefit | <input checked="" type="checkbox"/> other |

2. Technical changes

The solder pins of the SLDV 5.08 are changed from a shiny tinned to a matt tinned surface. The product characteristics of the pin headers remain unaffected by this change. All technical data continue to comply with the specifications and standards of IEC 60664-1 and IEC 61984. The products can still be processed with an unchanged solder profile.

Old – shiny tinned solder pins

New – matt tinned solder pins

3. Availability

With this letter we inform you that the change will be implemented immediately in production. There will be no stock adjustment. Therefore, within a delivery from this point on, mixing of the variants may occur, but not in one packaging unit.

4. Affected parts

5. Data

Except for the look of the solder pins, all technical data and functional features remain unaffected by this measure. Detailed information on the technical data can be found for the individual products in the online catalog.

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.

For further questions please contact your sales office directly. All contacts for sales representatives are available here:
