Technical change to SIHA 3
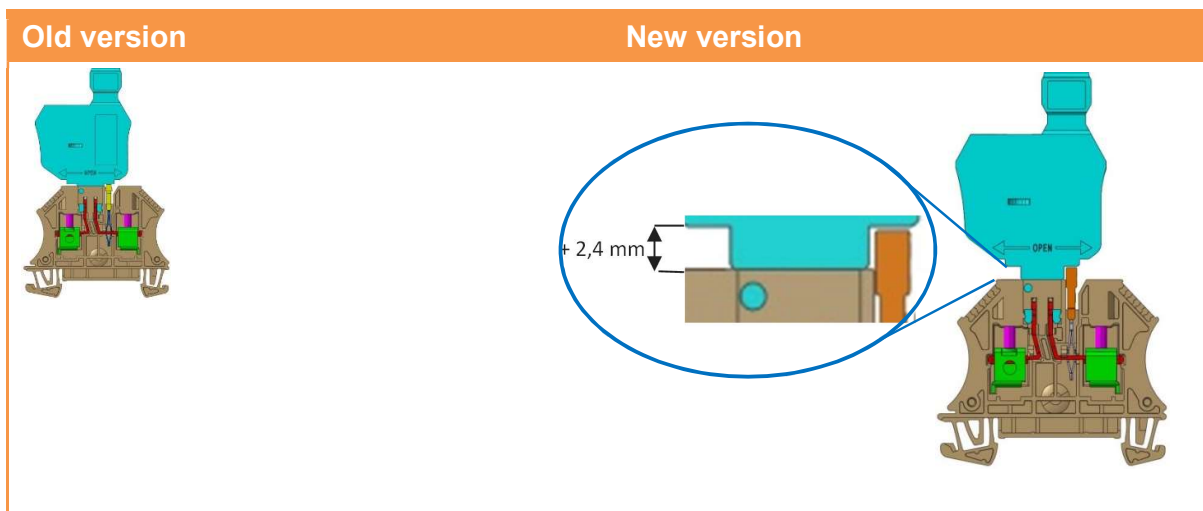

Dear Madam or Sir,

the below listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

The fuse holder SIHA 3 has been realized to convert a disconnect terminal to a fuse terminal by replacing the disconnect lever by a fuse holder.

2. Technical change

Height:	increased by 2.4 mm
LED version:	LLC (low leakage current)
Neighboring disconnect terminal:	it is easier now to open its disconnect lever
Unique identification of the "new" SIHA 3:	engraving "2018" black moulding

Old version	New version

3. Reason for change

The fuse holder SIHA 3 has been modified, as the pluggable cross connection for the A series is 2.4mm higher, due to the target to get only one pluggable cross connection ZQV…N for the A series & the W series.

4. Availability

The "new" version will be on stock from the end of October 2019 on. Please note that we do not scrap any stock of the old versions. For a certain space of time this can lead to the situation that for example the "…LD10-36V" is still the old version meanwhile "…LD 60-150V" is already the new version which is shipped.

5. Affected parts

7921600000	SIHA 3/G20/LD 140-250V
7921590000	SIHA 3/G20/LD 60-150V
7921580000	SIHA 3/G20/LD 35-70V
7921570000	SIHA 3/G20/LD 10-36V
1005250000	SIHA 3/G20/LD 10-36V BL
7921560000	SIHA 3/G20
1004260000	SIHA 3/G20 BL

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.
