

Product Modification for Pre-Assembled Cables with SCHNEIDER BMX FTB connector

Dear Madam or Sir,

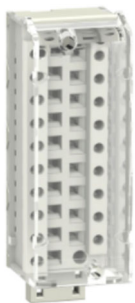

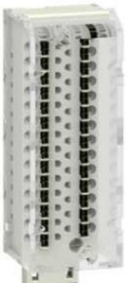

The products listed below are subject to a product change and will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications mentioned have been made to support our ongoing commitment to continual improvement and ongoing product development.

1. Initial situation

Pre-Assembled Cables with Schneider BMX FTB connectors were delivered in the past with the terminal block in white color.

2. Technical change

Recently, Schneider has started to send their BMX FTB connectors in a different color. From now on, BMX FTB connectors will be delivered in black instead of white. Both products have the same overall dimensions & electrical / mechanical performance.

Old connectors		New connectors	
BMX FTB 2000 white 		BMX FTB 2000 black 	
		BMX FTB 2820 black 	
		BMX FTB 4000 black 	
BMX FTB 2820 white 			
BMX FTB 4000 white 			

3. Reason for change

Schneider has started to supply their BMX FTB connectors in color black instead of white.

4. Availability

Once the stock of BMX FTB white connectors is finished, affected parts will be delivered with the new color modification.

5. Affected parts
