

Technical change to RSF S family

Dear Madam or Sir,

The above listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

RSF S had no UL approvals and were delivered with LP connectors which will be obsolete very soon.

2. Technical change

Based on continuous improvement the LP connectors + Dekafix used in RSF S will be replaced by LL connectors + pad printing technology.

Furthermore, module has been released according to UL recognized requirements. UL ratings: 60V / 1A

Discontinued items		Follow-up items	
	LP1N 5.0x/90		LL1N 5.0x/90
	LP2N 5.0x/90		LL2N 5.0x/90
	LP3R 5.0x/90		LL3R 5.0x/90
<ul style="list-style-type: none"> • Flammability class according to UL 94: V2 • Allows marking with DEK 5 marker 		<ul style="list-style-type: none"> • Flammability class according to UL 94: V0 • Allows direct printing or marking with KSW marker 	

3. Reason for change

Obsolescence of LP connector range and addition of **UL-recognized** approvals for the product that has been released now.

4. Availability

Current products in stock still have old connectors. Most of them have compatibility indicator 0 while three of the modules (RS F10 LP2N 5/10 – 0224961001; RS F20 LP2N 5/20 – 0224261001; RS F40 LP2N 5/40 – 0224461001) have compatibility indicator 1. Since today new productions will be with new modifications detailed above (Compatibility indicator 1 for those which are currently on 0; or 2 for these three detailed modules that have 1). As time goes on, products with compatibility codes 0 and 1 will decrease until end of stock following a FIFO process.
